REVISED REGULATIONS OF GASFITTING AS AMENDED UNDER AUTHORITY OF CHAPTER 265, ACTS OF 1897.

The following amendments are made in the Revised Regulations to go into effect September 1, 1923.

Section 10 is hereby amended by striking out the words "and one at the outlet side" in the third line, so as to read as follows:

SECTION 10. There shall be a main cock on the service pipe close to the foundation wall, one cock at the inlet side of each meter. When service pipes are over two inches, brass or composition, seated valves shall be used.

Section 12 is hereby amended by striking out the present paragraph and inserting the following:

SECTION 12. All gas pipes shall be of wrought iron or steel, all fittings of malleable iron, except above two inches, when cast iron if not concealed will be allowed. All meter connections other than side flange type are to be made with rigid iron connections of a type approved by the board of health and the building commissioner.

Section 13 is hereby amended by striking out the present paragraph and inserting the following:

SECTION 13. All fuel gas appliances whose safety depends upon a constant burning pilot light must be connected to a separate meter or to a fuel meter, close to the meter.

July 9, 1923.

Adopted by BOARD OF GASFITTING EXAMINERS,
JOHN H. MAHONY, *Chairman.*
DANIEL F. EGO, *Secretary.*

The time at which these amendments are to become effective has been extended to November 1, 1923.

JOHN H. MAHONY, *Chairman.*
